

Plan Series / Bolster Tops

In response to many customer requests, we have added a padded bolster to our list of options. It can be specified with the purchase of any of our "Plan Series" Consoles and can also be purchase to replace the original hardwood edge desk tops. The securing method and hole configuration has not changed so the retrofit is fast and easy. To insure comfort and durability, the bolster has a 1/4" thick foam padding and the vinyl is the highest quality material used by the automobile industry.
