

# Speaker Platforms

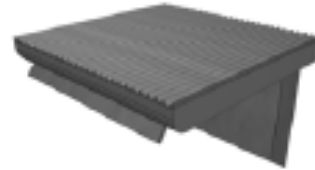

Sterling Modular's Speaker Platforms are finished with a durable black texture coating; the top surface is covered with 1/8" thick ribbed rubber.

Speakers are positioned approximately 46" from the mix position.

\*Please note that these platforms "rest" on the top of the console and care should be taken when placing or shifting the speaker on the platform.

7" x 7"

\*Please note that the 7" x 7" platform is only for "Auratone" or similar cube speakers.
