Versa_II Rack Configurations, Options, Accessories and Specifications.

Straight

- 1 - 25 degree wedge riser.
- 2 - 1 1/2" straight riser.
- 3 - Steel foot
- 4 - Heavy duty levelers
- 5 - (optional caster pack) Four heavy duty, rubberized casters. Two with brakes for the front.

Angled

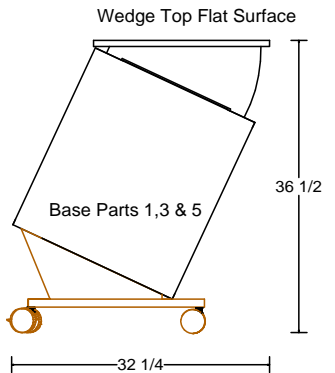

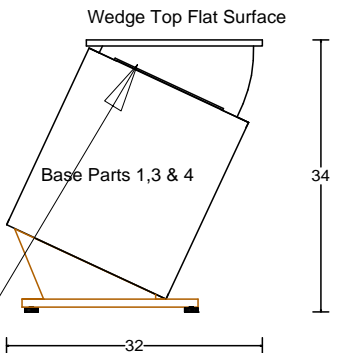

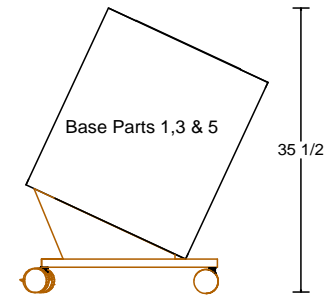

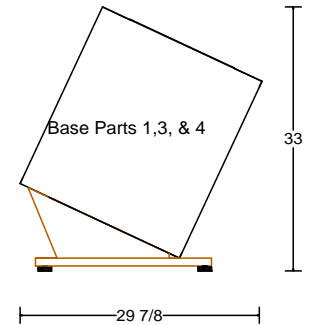

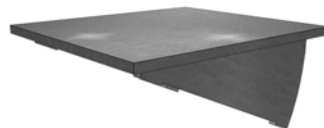

Table Top Option (for straight configuration)

Top measures 20 1/2" wide x 22" deep.
Sits on 5/8" risers to allow for continued top thermal venting.

Wedge top Flat Surface Option (for angle base configuration)

The top surface measures 20 1/2 " wide x 22" deep, and allows for the stacking of additional gear on the angled base configuration, without obstructing the thermal venting.
